Makassar

A fresh graduate in Informatics and Computer Education from Universitas Negeri Makassar, with a strong interest in Full Stack Development and Software Engineering. Experienced in developing web-based applications and information systems, with practical knowledge of frontend development, backend technologies, and database integration. Familiar with React.js, Laravel, PHP, JavaScript, and Supabase. Passionate about building efficient, scalable, and user-oriented digital solutions.

EDUCATION

Universitas Negeri Makassar - **Makassar, Indonesia** Aug 2023 - Sep 2026

Bachelor of Computer Science and Information Technology Education

- GPA - 3.87/4.00
- Concentration - Web Development
- Teaching Assistant - Microprocessor Systems Course
- Relevant Cousework - Web Programming, Object-Oriented Programming, Mobile App Development, Software Engineering, Database

WORK EXPERIENCE

Institute for Research and Community Service (LP2M), Universitas Negeri Makassar - **Makassar, South Sulawesi** Jun 2026 - Aug 2026

Administrative Intern – General Affairs Division

Contributed to the development of a digital archiving information system for managing institutional documents, including incoming and outgoing correspondence, assignment letters, and contracts. Assisted in frontend development using React.js, database integration with Supabase, and administrative data organization to improve document management and workflow efficiency.

PROJECTS

- **Web Inventory System – SMKN 3 Makassar**
  Laravel | *PHP* | *MySQL* | *HTML* | *CSS* | *JavaScript*

  Collaborated in developing a web-based inventory management system using Laravel, PHP, MySQL, HTML, CSS, and JavaScript. The system provides functionalities for managing inventory records, monitoring stock levels, tracking incoming and outgoing goods, and generating inventory reports. Contributed to building a digital solution that streamlines inventory management and improves data organization and operational efficiency.

- **LP2M Archive Management Information System**
  Laravel | *Resct.js* | *Supabase*| *CSS*

  Developed a web-based digital archiving information system for LP2M Universitas Negeri Makassar to manage and organize institutional correspondence and documents, including incoming and outgoing letters, assignment letters, decrees, and contracts. Contributed to frontend development using React.js and database integration with Supabase, creating an organized interface to streamline document management, retrieval, and administrative workflows.

- **Nusa Charta Center – Company Profile Website**
  Laravel | *React.js* | *Supabase*

  Collaborated in developing a company profile website for Nusa Charta Center to showcase its organizational profile, programs, publications, and activities. Contributed to website development using Laravel and React.js, with Supabase as the database solution, helping build a functional digital platform to present the organization's information and strengthen its online presence.

- **Web-Based CRUD Application**

  Java | *Netbeans*

  Developed a web-based CRUD application using Java and NetBeans to manage and process data efficiently. Implemented core functionalities for creating, viewing, updating, and deleting records, with a focus on structured data management and user-friendly application functionality.

- **Apartment Rental Application**

  Android Studio | *Java* | *Firebase*

  Developed an Android-based apartment rental application using Java and Firebase to provide apartment rental information and support rental management. Integrated Firebase for data storage and management, enabling users to access apartment details through a mobile application.

SKILLS

- **Programming Languages:** JavaScript, PHP, Java, C++, Python (Basic).
- **Frontend Development:** HTML5, CSS3, React.js, Tailwind CSS, Bootstrap.
- **Backend Development:** Laravel, REST API (Basic).
- **Database Management:** MySQL, Supabase, Firebase, SQL.
- **Development Tools:** Git, GitHub, Visual Studio Code, NetBeans, Android Studio.
- **Soft Skills:** Analytical Thinking, Problem-Solving, Communication, Teamwork, Leadership, Adaptability, Time Management, Fast Learning, Critical Thinking.
- **Languages:** Indonesian (Native), English (Basic), Bugis (Conversational).
